INTERPERSONAL SKILLS

- Leadership and Team Collaborator
- Problem Solver
- Skillful in Word, Excel, PowerPoint
- Time Management
- Critical Thinking

TECHNICAL SKILLS

Languages: Java, Javascript, C++

Frontend: HTML, CSS

Backend: MySQL

Tools: Android Studio, Firebase, VSCode, IntelliJ

CERTIFICATIONS

Outside of Degree
In Progress:

- The Complete 2024 Web Development bootcamp, Dr, Angela Yu (Udemy)
- - 100 Days of Code: Complete Python Project, Dr, Angela Yu (Udemy)

PROFILE

A highly motivated and detail-oriented software engineer with a solid foundation in programming, system design, and problem-solving, gained through a BSc in Information Technology (Software Engineering). Proficient in Java, JavaScript, and C++, with hands-on experience in mobile and web development, database management using MySQL, and front-end technologies like HTML and CSS. Skilled in leveraging tools such as Android Studio, Firebase, and VSCode to develop scalable, user-friendly applications. Known for strong leadership, collaboration, and time management skills, with the ability to thrive in fast-paced environments. Passionate about utilizing emerging technologies to deliver impactful solutions, improve business efficiency, and drive growth.

EDUCATION BACKGROUND

BSc Information Technology (Software Engineering) 2022-2024
Eduvos Bedfordview

Year 1: GPA: 3.3

Distinction Achieved: 5/11

Major Courses

- Introduction to Programming (C++)
- Procedural Programming
- Introduction to Information Systems
- AP Calculus
- Advanced Information and Computer Skills

Year 2: GPA: 3.5

Distinction Achieved: 4/9

Major Courses

- Web Server Management
- Java
- Network Security
- Database Systems Design, Implementation and Management

Year 3: GPA: 3.7

Distinction Achieved: 5/8

Major Courses

- Web Development and e-Commerce
- Enterprise Programming in Java
- Mobile Application and Web Service
- Object Oriented Systems Analysis and Design

PROJECT PORTFOLIO

Transportation and Service App

Role: Frontend + Backend Developer

Description: The app is a mobile solution designed to simplify booking transportation and vehicle services for users. It provides a user-friendly interface to schedule appointments, explore service offerings, and access the small businesses details. The app features a secure login system, personalized user sessions, and Google Maps integration for easy location access, helping improve customer engagement and streamline the company's operations.
